

Baby, I promise,

Throughout my pregnancy, every time I ride in a motor vehicle, I will always wear my seat belt correctly, with the:

1. Lap belt snug, flat on my lap and under my tummy
2. Shoulder belt crossing between my breasts and between my neck and shoulder

3. And will only drive if I can safely reach the pedals and have the steering wheel is at least 10 inches away from my breastbone. I do this, because I love you!
